

# WOODEN SPORT FLOORS

## ADIPORTABLE

**Adiportable** is a sports flooring specifically designed for **short ending events**; its high level of flexibility is optimal for all gyms, even for those with special requirements, thus suitable for higher level sport plants.

This flooring can be **easily installed** and **quickly removed**, without compromising the underlying pavement.

Sports flooring/parquet **ADIPORTABLE** with CE marking, composed of a sheet of **nylon** vapor barrier extended to all the substrate surface in order to avoid any humidity penetration upon which is placed in work, the sports performance system composed of:

- **Agglomerated polyurethane foam Mat**, that can provide the right elasticity, able to optimize the shock absorption and the following release of energy.  
Thickness: 20 mm.
- **Metal plate**
- **Solid floor 22 mm HEVEA essence**, assembled together in panels with special metal plates and joints.  
Noble wood: 22 mm.

Overall Adiportable thickness: 42 mm.
